Projects

Finance Tracker website

May 2025

Website link here

- Built a full-stack personal finance tracker using Node.js, JavaScript, HTML/CSS, and SQLite, with data stored and queried locally.
- Developed features for tracking income/expenses, categorizing transactions, and visualizing spending patterns, while implementing Node.js routes and form handling for a responsive, interactive interface.

Blackjack game

April 2025 - May 2025
